

California Infrastructure Investment

Union Pacific announced their 2018 capital improvement projects including \$122 million in California. The bulk of the investment will be spent on \$90.8 million in track maintenance and \$14.2 million to maintain bridges.

Key Projects

- 📍 \$10.1 million project to replace 20 miles of rail between McFarland and Bakersfield
- 📍 \$7.4 million in rail infrastructure in West Colton
- 📍 \$4.8 million project to replace more than 33,000 ties between Newark and Aromas

Union Pacific Investment

“Our targeted investments support customers and enhance our efficiency to deliver the goods American businesses and families use daily,” said Wes Lujan, UP assistant vice president – public affairs, western region. Overall, UP has invested over \$985 million in California infrastructure in the last five years.
